

# INFLANET dissemination meeting

Satellite meeting of the 2024 European Phagocyte Workshop

**23 March 2024**

**Hotel Visegrád, Hungary**

## Saturday afternoon session

**14:15 Welcome and introduction by INFLANET coordinator, Dr Mai Nguyen Chi**

University of Montpellier, FR

**14:30 1<sup>st</sup> keynote speaker: Prof. Anne Huttenlocher**

Professor of Medical Microbiology & Immunology and Pediatrics, University of Wisconsin–Madison

*“From humans to zebrafish and back: understanding inflammation and its resolution”*

**15:10 4 INFLANET ESRs student’s talks**

- **Saatvik Potluri**, CNRS, Paris, FR "Fibroblast activation upon inflammation in zebrafish larvae";
- **Maria Demou**, University of Montpellier, FR “Analysis of the binding mode of S100A6 to RAGE using integrative structural approaches reveals the importance of cysteines for ligand: receptor complex formation”;
- **Giulia Lupi**, STUBA, Bratislava, SL “Understanding macrophage motion during wound healing: extraction of smooth velocities and analysis of randomness”;
- **Sankeert Satheesan**, Acquirer, Heidelberg, DE "Design and implementation of workflow tools for multiplexed time-lapse imaging experiments in zebrafish screening.

**16:10 Coffee break**

**16:40 4 INFLANET ESRs student’s talks**

- **Maria Parlani**, Radboud, Nijmegen, NL “Dissecting the foreign body response at a cellular and molecular level”;
- **Eleni Grosu**, Radboud, Nijmegen, NL “Stromal response to cancer”;
- **Gaofeng Zhu**, University of Edinburgh, UK “Haploinsufficiency of PTPN1 underlies a novel type I interferonopathy”;
- **Konan Allaly**, TatraMed Software, SL “Automatic path extraction inside the aorta from CT data”.

**17:55 2<sup>nd</sup> keynote speaker: Prof. Sarah Walmsley**

University of Edinburgh, UK

*“Hypoxia and neutrophil re-education”*

**Closing remarks**
